Purpose of this document:

This COVID19: Risk Assessment and Action Plan document sets out the decisions taken and measures put in place to respond to restricted attendance at the school during the latest national lockdown period (from January 2021) and ensure the school continues to operate in a safe way.

Existing policies and guidance continue to apply alongside the actions within this document, including but not limited to:

- Health and Safety Policy
 - First Aid Policy
 - Child Protection Policy (Jan '21) – to cover lockdown
 - CYP Response Plan (Jan '21)
 - DFE Guidance relating to COVID19
 - Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
 - The Health Protection (Notification) Regulations 2010
 - Public Health England (PHE) (2017) 'Health protection in schools and other childcare facilities'
 -
- "This is a dynamic risk assessment, to be updated as new information becomes available. Alterations to this document will be recorded with version numbers, (V 1:00) and dated. Each version will be stored, giving a demonstrable paper trail.
 - It is the responsibility of the Headteacher or persons deputising to update the dynamic risk assessment. The health and safety governor will scrutinise this process.
 - The risk assessment is not able to assess the risk posed by the virus itself or the level of infected persons in the community, it relies on advice from government, both central and local, to take this risk into account in their advice to schools.
 - It is the responsibility of the Headteacher to reduce the risk if there are an unreasonable number in the medium and high category. Action may include reducing pupil numbers and or closing the school "
